

BP PRIME

Blockchain Developer

BP Prime is a dynamic financial company and as part of our ongoing development we are looking for a specialist in cryptocurrencies and blockchain technology. Using BP Prime's experience and technology we are planning to launch a range of solutions for our customers and we need someone with great experience in Software and web development.

Job description:

The ideal candidate needs to have a proven experience in both manipulation of data between different web applications, development of a website and software related development through C, C++ and Java (not required but may prove useful). In addition, we would want candidates with great determination and passion in the field of security, programming and internet technologies. Successful candidates will acquire a broader range of skills for the financial markets, language skills as well as other computational skills which proves to be extremely valuable for the future of finance and tech. The candidate must be pro-active with the ability to work on their own initiative and harnessing a passion for crypto currencies and blockchain technologies.

Skills required:

- ◆ Web development and integration with 3rd party APIs (HTML5, JavaScript, RPC)
- ◆ Software development (APIs, C++, Java)
- ◆ Blockchain technology (smart contracts, Solidity)
- ◆ Knowledge of Secure technologies (HTTPS, SHA3)
- ◆ Knowledge of banking systems.
- ◆ Knowledge of Crypto exchanges
- ◆ Knowledge of currency exchanges.

Qualifications required:

- ◆ A bachelor's degree or NVQ in Computer Science/Engineering.
